3. System audit findings

ID	SCREEN / AREA	TEXT FOUND (EXACT) AND CORRECTION	TYPE	CORRECTED TODAY? / PENDING BECAUSE...
S-01	Login View	Found "Loggin" -> Corrected to "Login"	Typo	Corrected today
S-02	POS Dashboard	Found "Total: \$ 0.00" -> Corrected alignment and currency format	UI / UX	Corrected today
S-03	Inventory Module	Found "Stok" -> Corrected to "Stock"	Typo	Corrected today

S-04	Customer Kiosk	Found "Proceed to checkout" button unlinked -> Linked route successfully	Logic / Bug	Corrected today
S-05	Reports Section	Found missing date filter range -> Added start and end date pickers	Feature	Corrected today
S-06	Settings Panel	Found unhandled exception on database timeout -> Added try-catch block	Stability	Corrected today

4. Declaration

4.1 Ready

All system core modules, database queries, documentation files, and the presentation script are fully completed, tested, and verified for today's presentation.

Todos los módulos principales del sistema, consultas a la base de datos, archivos de documentación y el guion de presentación están completamente terminados, probados y verificados para la presentación de hoy.

4.2 Pending

Nothing core is pending; minor cosmetic adjustments to UI padding will be finalized during the final staging review before deployment.

No hay pendientes críticos; los ajustes menores de diseño en el espaciado de la interfaz se finalizarán durante la revisión final en el entorno de pruebas antes del despliegue.

We declare that this team is ready to present on Friday 18 September, that the documents and the system were audited today, and that the demonstration contains no real personal data.

Declaramos que el equipo está listo para presentar el viernes 18, que documentos y sistema fueron auditados hoy y que la demostración no contiene datos personales reales.
